Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Reissue Applications

1. This application is objected to under 37 CFR 1.172(a) as the assignee(Kulicke & Soffa Investment has not established its ownership interest in the patent for which reissue is being requested. An assignee must establish its ownership interest in order to support the consent to a reissue application required by 37 CFR 1.172(a). The assignee's ownership interest is established by:

(a) filing in the reissue application evidence of a chain of title from the original owner to the assignee, or

(b) specifying in the record of the reissue application where such evidence is recorded in the Office (e.g., reel and frame number, etc.).

The submission with respect to (a) and (b) to establish ownership must be signed by a party authorized to act on behalf of the assignee. See MPEP § 1410.01.

A 3.73(b) certificate for Kulicke & Soffa Investments must be submitted in reply to this Office action.

2. The original patent, or a statement as to loss or inaccessibility of the original patent, must be received before this reissue application can be allowed. See 37 CFR 1.178.

Election/Restrictions

3. Restriction to one of the following inventions is required under 35 U.S.C. 121:

Art Unit: 3724

I. Claims 1-4, drawn to a method of aligning cutting lines of a workpiece, classified in class 125, subclass 1.

II. Claims 5 and 6, drawn to a dicing machine and an alignment apparatus for aligning cutting lines of a workpiece, classified in class 125, subclass 12.

The inventions are distinct, each from the other because of the following reasons:

4. Inventions I and II are related as process and apparatus for its practice. The inventions are distinct if it can be shown that either: (1) the process as claimed can be practiced by another materially different apparatus or by hand, or (2) the apparatus as claimed can be used to practice another and materially different process. (MPEP § 806.05(e)). In this case the apparatus as claimed can be used to practice another and materially different process such as cutting a workpiece with only one blade which does not require aligning cutting lines.

5. Since this is a reissue application, the original patent claims 1-4 will be held to be constructively elected. Thus, the examiner will withdraw newly added claims 5 and 6 from consideration, and treat original patent claims 1-4 on the merits. See MPEP 1450.

Allowable Subject Matter

6. Claims 1-4 are allowed.

7. The following is a statement of reasons for the indication of allowable subject matter:

Art Unit: 3724

a. The claims are allowed because the prior art does not teach or suggest, registering references patterns at at least one point of low magnification and one point of high magnification on a workpiece located at a preset position and moving either one of two imaging means to a position so as to produce an image of a pattern at one point at the outer circumference of the workpiece and aligning the workpiece such that the image of the pattern at the point at the outer circumference can match with at least one reference pattern.
